This outline is not intended to replace the product insert or your standard operating procedure (SOP).

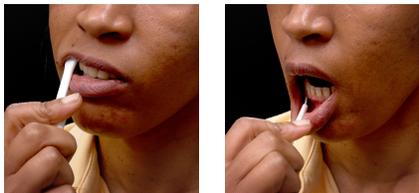

1. **Collect test items and other necessary lab supplies.**

2. **Set reusable stand on a flat, level surface. Partially remove device from package and label device and developer vial with client identification number.**

3. **Carefully uncap the developer vial and place vial into the stand.**

4. **Instruct the client to use the pad end of the test device to swab completely across the outside of the upper and lower gums, one time around.**

5. **Insert the device pad completely into the vial with the result window facing forward.**

6. **Wait 20 minutes (no longer than 40 min.) before reading the results.**

7. **Read and record the results and other pertinent info on the worksheet.**
